This is something we have been working toward for over 20 years. Contributing to the industry from the Administration, Accounting, Consulting and Software Development side has given us a great baseline for building a new concept in Long-Term Care.

The Rhoads Family, along with everyone at Caregiver Management Systems, Inc., has been implementing pieces of a "much larger" concept for many years and now the stars have aligned and opened up an opportunity for us to prove that there is "a better way" to provide for our loved ones in a Long Term Care environment.

We are very excited and greatly appreciate the help of every one who has contributed to making our dreams come true.

Sincerely,

The Rhoads Family
